

“I was enrolled for three QuickBooks courses through Community Futures in the fall of 2013. I found the courses extremely helpful in the workplace. I also found the Instructor Debbie to be very knowledgeable, friendly and patient. On one particular course, I was the only student who showed up due to the harsh temperature. Debbie worked with me one on one this day and when I left I had such a great understanding of QuickBooks. I know personally if I need to take any more courses I will definitely go through Community Futures, and will recommend Community Futures to anyone I talk to! Thank you very much!”

“On September 23, 2013 I took the course ‘Start Your Business’ at Community Futures Central Alberta in Red Deer. The classroom course was delivered via videolink. The course was professionally presented and I would definitely recommend it. The experienced instructor presented a lot of information clearly. The classroom facilities are excellent. I was very satisfied with the course and the Community Futures facilities. “
